Introducing the JF Manufacturing Tribute Collection: Honoring Roby’s Legacy

At JF Manufacturing, we are more than just a company we are a family. And sometimes, family members come in all shapes and sizes, including four-legged ones. Today, we are both proud and emotional to introduce our Tribute Collection, a special series dedicated to our beloved dog, Roby.

Roby: A True Family Member

Roby was more than just a pet to us. He was an integral part of the JF Manufacturing team, a constant presence that brought joy, comfort, and a sense of community. His gentle nature and unwavering loyalty made him not only a cherished member of our family but also a friend to everyone who crossed paths with him. Whether he was accompanying us to the office or offering a comforting presence during long work hours, Roby’s spirit was a source of light and love.

Giving Back: A Meaningful Cause

In memory of Roby and the impact he had on our lives, we are dedicating a portion of the proceeds from every sale of the Tribute Collection to the Warrior Dog Foundation. This incredible organization supports retired military and working dogs—heroes who have served alongside our soldiers and first responders, providing protection, companionship, and invaluable service. We believe that dogs play a vital role not only in our personal lives but also in the lives of those who serve. They are protectors, companions, and unsung heroes. Roby’s story and legacy inspire us to give back to those who continue to protect us in their own special way.

**What’s Included in the Collection** The Tribute Collection is a carefully curated selection of products that reflect the heart and soul of our team and the love we had for Roby. Each item in the collection is crafted with care and attention to detail, representing the dedication and spirit that Roby brought to everything he did. With every purchase, you’re not just getting a piece of our collection—you’re helping to support dogs in need. Your contribution will help the Warrior Dog Foundation continue their vital work, ensuring that retired service dogs receive the care, training, and love they deserve after their years of loyal service.

Thank You for Joining Us in This Tribute

We are deeply grateful to have had Roby by our side, and while his presence is no longer with us physically, his legacy will continue to live on through this collection. Your support means the world to us, and we are honored to have you join us in giving back to the incredible dogs who make a difference every day. Thank you for being part of this journey. Together, we can honor Roby’s memory and help support those who have served alongside our heroes.

At J.F. Manufacturing, Inc. our mission is to provide you with the highest quality products at the best possible prices. We use only the finest materials when it comes to making our products. We strive to go above and beyond when it comes to quality. Because we manufacture all our own recycled plastic products, we are able to sell direct to the customer saving you money. We also have a complete sign and flag shop on site. With over 25 years in the golf industry, you can be sure you are receiving quality products. If you are looking for something you don't see in our catalog, give us a call as we can probably make it for you.

JF Manufacturing has proudly used Tangent Recycled Plastic Lumber for over 25 years because it is of the highest quality and has the widest color selections available. Our furnishings are high end because we use high end materials.

1. Environmental Sustainability:

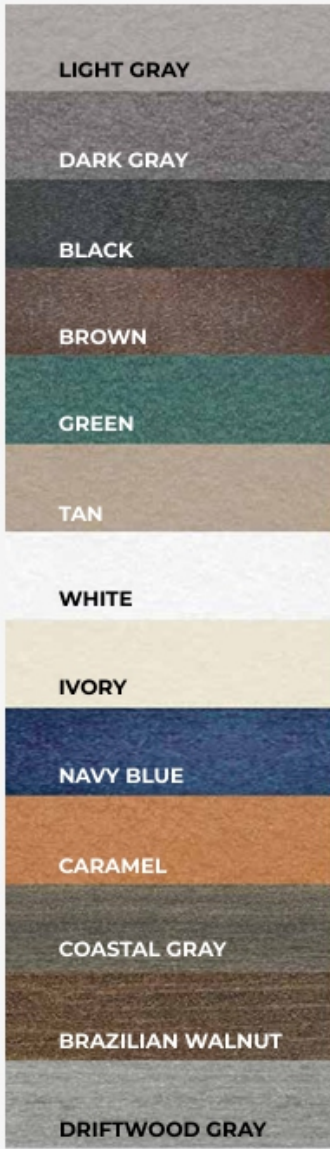

- Reduces Landfill Waste: This is arguably the biggest benefit. By transforming post-consumer and post-industrial plastic waste (like milk jugs, detergent bottles, and other HDPE plastics) into durable products, we divert millions of pounds of plastic from landfills and oceans.

2. Exceptional Durability and Longevity:

- Weather Resistance: Recycled plastic HDPE is incredibly resilient to all types of weather. It will not rot, rust, splinter, or corrode, making it ideal for outdoor use in any climate.
- UV Resistance: Quality recycled plastic furniture is treated with UV inhibitors, preventing it from fading, cracking, or becoming brittle due to prolonged sun exposure. This means colors stay vibrant for years.
- Moisture and Insect Proof: Unlike wood, recycled plastic does not absorb moisture, so it is immune to mold, mildew, rot, and insect infestations.

3. Low Maintenance:

- Easy to Clean: The nonporous surface of recycled plastic makes it incredibly easy to clean. A simple wipe down with soap and water is usually all that is needed to keep it looking new.
- No Painting, Staining, or Sealing: Unlike wood, it never needs painting, staining, or sealing, eliminating ongoing maintenance costs and effort.
- Resistant to Stains and Spills: Its nonporous nature also means it resists stains and spills, making it the perfect option for busy environments or outdoor entertainment.
- In summary, choosing recycled plastic furnishings is a powerful way to make an environmentally responsible choice without compromising on durability, aesthetics, or functionality.

JF Manufacturing proudly uses King Plastic Corporation’s HDPE (High- Density Polyethylene) laminate plastic as it has been proven to be the highest quality material since 1968 and the brand is synonymous with quality to those who know plastics.

Exceptional Durability and Longevity:

- Weather Resistance: HDPE is inherently resistant to a wide range of weather conditions making it suitable for all climates. It does not rot, rust, or corrode, and it performs well in both hot and cold temperatures.
- UV Stabilization: Many HDPE laminates are specifically treated with UV stabilizers. This prevents the material from degrading, fading, or becoming brittle due to prolonged exposure to sunlight, ensuring the sign’s colors and integrity last for years.
- UV Stabilization: Many HDPE laminates are specifically treated with UV stabilizers. This prevents the material from degrading, fading, or becoming brittle due to prolonged exposure to sunlight, ensuring the sign’s colors and integrity last for years.
- Moisture Resistance: HDPE is waterproof and has extremely low moisture absorption. This prevents issues like mold, mildew, and warping, which can plague other materials like wood or lower grade plastics.

Low Maintenance:

- Easy to Clean: HDPE’s nonporous surface makes it easy to clean. Dirt and grime can be easily wiped off which reduces the need for frequent maintenance or replacement.
- No Painting or Sealing: Unlike wood signs that require painting or sealing to protect against the elements, HDPE signs come in a range of colors that are “fused” into the material, meaning they will not need ongoing painting or staining.

Versatility and Aesthetics:

- Color-Cored Options: Many HDPE sign materials are multilayered with contrasting colors. When routed or engraved, the inner color is exposed, creating a clear and durable design without needing paint. This is excellent for safety signs where clarity is paramount.

Environmental Considerations:

- In summary, HDPE laminate is a fantastic choice for signs because of its rugged durability, resistance to environmental factors, low maintenance requirements, and overall longevity, ensuring that your messages remain clear and visible for an extended period.

### Step 4: Choose Your Message

Creating a custom sign with JF Manufacturing is as easy as answering a few questions. It only involves a few steps, from initial concept to the final product. We will help you answer the questions and lay out your design for your approval.

#### Here's a general guide to help define your needs.

1. Purpose: What is the sign for? (e.g., welcoming, directions, advertising, informational, safety)
2. Location: Where will it be placed and mounted? (e.g., on a wall, on a post, or in the ground)
3. Size: How large do you need it to be and what best fits the location?
4. Shape: What shape would best suit your design?
5. Color: What color scheme best matches your location? How noticeable should the sign be?
6. Content: What text and logo do you want to include?

## Golf Range Targets

### Introducing the All New JFM Driving Range Distance Markers

Elevate your range with our durable and eye catching distance markers, crafted from hard laminated plastic lumber for long lasting performance. Available in a variety of colors and yardages to match your facility's needs. Our laminated folding target signs are an excellent addition to any driving range or golf practice facility

What truly sets these targets apart is their folding design, which allows for quick and easy setup, take down, and compact storage. This makes them ideal for temporary practice setups, tournaments, or for courses that need to move their targets frequently.

#### Custom Sizes to Fit Every Course

- Available in sizes from 24" x 24" to 48" x 96"
- From short wedge practice to long range bombs, we've got the right size for every shot

#### Personalized for Your Brand

- Add your course or sponsor logo for brand visibility
- Choose the classic bullseye or customize with specific yardages for training clarity

#### Built to Perform on the Range

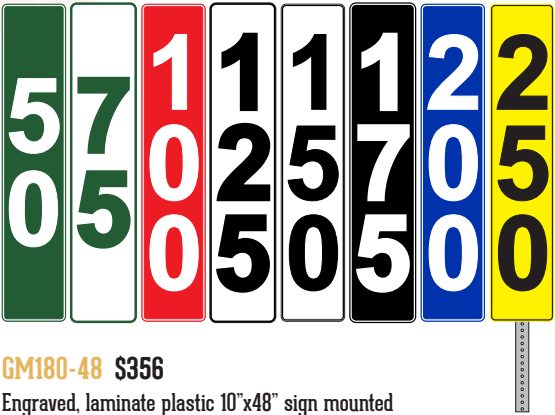

- Angled for maximum visibility and to create a loud, satisfying "thud" when struck
- Instant feedback keeps golfers engaged and returning for more

#### Eye-Catching and Durable

- Available in a variety of bold, weather resistant colors that stand out
- Made to withstand heavy use and all conditions

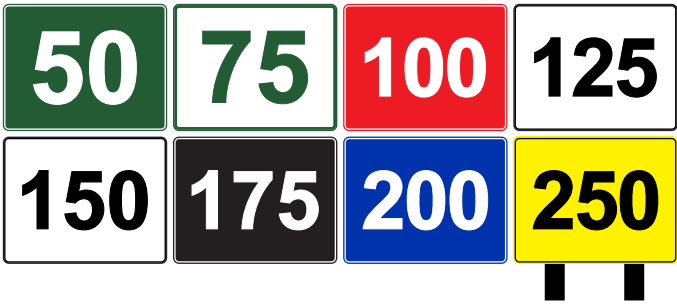

#### Why They're Perfect for Your Range

- Elevate the training value of your facility
- Encourage golfers to improve distance control and shot accuracy
- Add a fun and competitive element that keeps players coming back
- Make your range look more professional and visually appealing

## FLAGS Embroidered

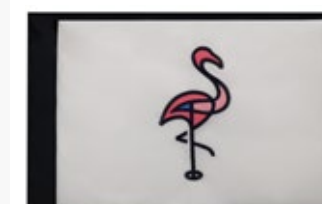

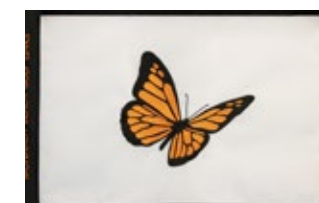

### Flags of Distinction

Flags are among our most popular products, and for good reason. First and foremost, we make our flags in the U.S.A. out of 400 denier nylon, which is twice as strong as the industry standard. Custom embroidery is performed in house, and we also offer a silk screening service so you can get a personalized product built to your exact specifications.

Moreover, our flags are built to last. In addition to the highest quality fabric available, our flags are zig-zag and triple stitched, with reinforced corners to prevent fraying in sustained winds. They're also mildew and UV resistant, so they'll stay looking new for years. Finally, because we build our flags in house, custom work can be turned around in two weeks or less and priority service is available. Please call for details.

# Golfco Rollers

## New 2" Diameter Grooved Competition Rollers

### Six bodies - Non-skidding for tight turns & ground undulations

### Competition Rollers

Our Competition Rollers are used by some of the world's most renowned and exceptional top golf courses and sports fields.

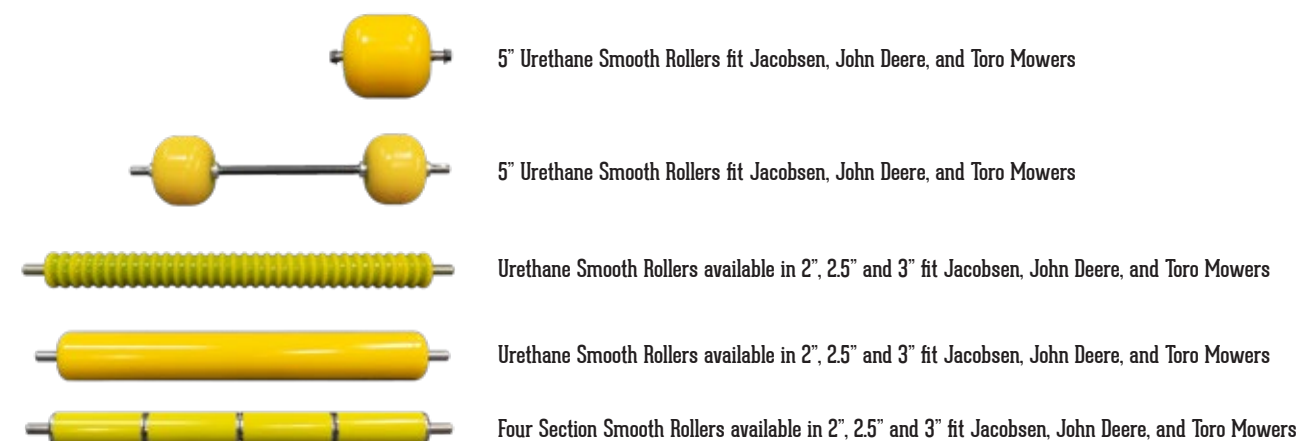

All of our rollers are Made in the U.S.A.

- Advanced design for bearings, seals and retainer components.
- Competition Rollers are heavy duty, thick wall precision steel rollers.
- All polyurethane covered rollers are made with 1.75" OD, thick wall, precision DOM steel tubing.
- Polyurethane body material limits debris buildup and diminishes transmigration of harmful elements such as disease or fungus.
- Will not shred or fray like plastic materials.
- Will far out last any metallic material in abrasive conditions.
- Minimizes shake and shudder from the motor which reduces wear on the joints and components.
- Polyurethane minimizes turf stress from thermal transfer.
- Minimizes potential for frost buildup.
- Grooved design features no parallel sides within the groove channels.
- Grooved design has large soft radius groove rests and no corners for gentle turf contact.

Cutaway sample of polyurethane Competition Roller. All Competition Polyurethane Rollers have heavy duty precision steel tubing inside. All Competition Rollers hold extremely tight tolerances and are heavy duty steel rollers with polyurethane cast over the steel housing for extra toughness.

Reel Diamond Lapping Compound

- Turf Pride combines the perfect match of diamond powder and silicon along with near pure water that will stay in place to produce quicker lapping process. With a blade cutting surface that extends less bruising to the grass, leaving a high-quality cut and healthier turf.Trigger flow control.
- Environmentally safe abrasive compound
- Electronic-grade water is pH neutral and washes off with water ` [see note below]
- Formulated with precisely enough viscosity to permanently suspend the abrasive
- Tackiness additives to keep the product on the blades, not on the floor or the technician
- Lubricant to dissipate heat on the blades, minimizing warp
- Rust inhibitors to minimize corrosion
- The industrial diamond compound will always provide a faster cutting action and produce a much sharper cutting edge

Turf Pride Bed Knives

Turf Pride Bed Knives are available in three thicknesses and are available to fit major brand greens mowers including Toro, Jacobsen, John Deere, and Husqvarna.

Hardness: Rockwell C scale 48 - 49.

Material: Spring type steel high carbon content with chrome/nickel alloys and a polished finish.

With the Turf Pride premium knives, the over all thickness from one end to the other is guaranteed not to vary more than .001". Turf Pride Premium bed knives will ensure a true golf ball roll on all putting surfaces.

Turf Pride bed knives are guaranteed to be perfectly straight without the need of grinding after attaching. We are now making a 30 - 40 degree "Manufactured Relief" standard on all of our bedknives. No need to spend time grinding relief, saving dollars.

Effective Cutting Heights:

- Turf Pride [thin bed knife] 0.100
- Turf Pride [super thin bed knife] 0.075
- Turf Pride [tournament bed knife] 0.050
